

June 3, 2013

Selectman: Richard Carver, Nancy Colson, Linda Post

Present: Michael Voncannon

5:00 PM Public Forum

None

5:01 PM New Business

The pumps on Harborside Terrace & Cottage Avenue need to be pumped. Scott Bickford had to work on them last weekend. Nancy wanted to know how much money was in the account and to call Interstate Septic to see how much it would cost.

Nancy Colson mentioned that they fixed the foundation on the Stump Dumps new building. They are going to start putting up the walls.

Charlie Silletti asked for \$200.00 to make preliminary copies for the planning board and selectmen to review. Richard Carver said if there is money left in their account we can, if not we will have to make a few copies here at the office.

5:20 PM Old Business

Michael Voncannon from the cemetery committee came back for the answers from last meeting.

Cemetery - We have an old account and it has \$500.00 in it for perpetual care. Richard Carver told Michael that we are going to put an article in the Town Book to be voted on in regards to accepting gifts without having to have special meetings. Richard Carver told her when she writes her letter for the book it okay to ask for donations. Estate of Anna Kangas left money to the town for Funding Capital Improvement and repairing of public facilities in the Town of Owls Head and the Cemetery would like \$2500.00, we are going to check with MMA legal to see if the cemeteries fall under that category. As soon as we have the answer we will get back to them. Also Richard Carver and Michael Voncannon are going to check into state law in regards to maintenance of the stones.

Sand Bid. Linda Post made a motion to accept Hartland's bid for sand from Hartland. Richard Carver seconded it. All in favor.

Richard Carver wrote a letter to send to Jake Barbour about salt on the roads. He sent it to the other selectmen to look at and make any corrections.

Fire Department: The Owls Head Volunteer Fire Department Board of Directors and the Owls Head Selectmen have agreed to have the Fire Department be reviewed. The question is what department pays for this ? The Selectmen are going to contact MMA to see what is correct.

Conservation Committee is having a meeting at 6:30 pm

Warrants and Payroll were approved and signed.

Minutes from May 15, 2013 were approved but they had a question for Tom Edwards on whether his supplement should have been building or land.

Respectfully submitted,

Pam Curtis
Recording Secretary
